BATTERY HANDLING MADE SIMPLE

# ROLLING TRANSFER CART

---

Simplicity at its finest, the RTC is designed to service or transport lighter batteries. Available in various heights and configurations, it's perfect for any traditional warehouse with minimal changing requirements. A cost-effective, dependable solution for operations with small-scale battery-changing requirements, this manual transfer cart offers a quick and efficient solution to keep your employees safe during every change.

Store, handle and swap one or two batteries at a time. The RTC makes changing forklift batteries easy for everyone, with a capacity of 4,000 lbs.

## **COMPACT & MANOEUVRABLE**

Small but mighty and easy to handle, the compact, rollable design ensures easy manoeuvrability.

## **DURABLE CONSTRUCTION**

Perfect for harsh environments, the RTC is a complete unit with a fully welded frame, ready to combat even the most unforgiving operating conditions.

## **BATTERY PROTECTION**

A built-in backstop and safety stop means protection for batteries during every change.

## **NO RESISTANCE**

The heavy-duty welded construction of the RTC doesn't impact its ability to roll, even fully loaded, because every unit includes durable phenolic casters.

## **WARRANTY**

Every unit comes with a standard 1-year warranty for your protection.
